Editors

Sulfur Metabolism in Higher Plants

Fundamental, Environmental and Agricultural
Aspects

 Springer

Contents

Foreword: There is (Almost) No Way to Escape from Sulfur in Plant Research
- Heinz Rennenberg

Part I Overview papers

Sulfate Transport in Plants: A Personal Perspective - Malcolm J. Hawkesford

Quo Vadis Sulfur Investigatio? – 25 Years of Research into Plant Sulfate Reduction - Stanislav Kopriva

Expression Profile of the Serine Acetyltransferase (SERAT) and O-Acetylserine (thiol)lyase (OASTL) Gene Families in Arabidopsis - Mutsumi Watanabe and Rainer Hoefgen

Elucidating the Effects of Higher Expression Level of Cystathionine γ -Synthase on Methionine Contents in Transgenic Arabidopsis, Soybean and Tobacco Seeds - Hagai Cohen, Yael Hacham, Ifat Matityahu and Rachel Amir

Biosynthesis of S-Alk(en)yl-L-Cysteine Sulfoxides in *Allium* – Retro Perspective - Naoko Yoshimoto and Kazuki Saito

The Effect of Sulfur Nutrition on Glucosinolate Patterns and Their Breakdown Products in Vegetable Crops - Britta Pitann, Carolin Heyer and Karl H. Mühling

Prospects for Agricultural Sulfur Research - Silvia H. Haneklaus, Elke Bloem and Ewald Schnug

Part II Research papers

DMSP: Occurrence in Plants and Response to Salinity in *Zea mays* - Ties Ausma, Marko Kebert, Jacqueline Stefels and Luit J. De Kok

Impact of Atmospheric H₂S, Salinity and Anoxia on Sulfur Metabolism in *Zea mays* - Ties Ausma, Saroj Parmar, Malcolm J. Hawkesford and Luit J. De Kok

Salinity Influences Single Glucosinolate Content in the Halophyte *Lepidium latifolium* - Christian Boestfleisch, Johann Hornbacher, Annkathrin Rumlow and Jutta Papenbrock

Re-assessing Systems Biology Approaches on Analyzing Sulfate Metabolism
- Rainer Hoefgen and Mutsumi Watanabe

Combining Isotope Labelling with High Resolution Liquid Chromatography-Tandem Mass Spectrometry to Study Sulfur Amino Acid Metabolism in Seeds of Common Bean (*Phaseolus vulgaris*) - Jaya Joshi, Justin B. Renaud, Mark W. Sumarah and Frédéric Marsolais

Investigations on the Current Sulfur and Sulfate Intake of Cattle in Germany - Are There Any Risks for a Consumption Exceeding Recommended Upper Limits? - Josef Kamphues, Anne Dohm, F. von und zur Mühlen and Petra Wolf

Manganese Toxicity Hardly Affects Sulfur Metabolism in *Brassica rapa*
- Mariana I. Neves, Dharmendra H. Prajapati, Saroj Parmar, Tahereh Aghajanzadeh, Malcolm J. Hawkesford and Luit J. De Kok

Localization of Sulfate Uptake and pH Changes at Sulfur-deprived Roots of Intact *Brassica pekinensis* Seedlings by using H⁺-selective Microelectrodes
- Martin Reich, Marten Staal, Luit J. De Kok and J. Theo M. Elzenga

Evidence for Regulation of the Iron Uptake Pathway by Sulfate Supply in S-Deprived Maize Plants - Georgios I. Saridis, Styliani N. Chorianopoulou, Panagiotis Katinakis and Dimitris L. Bouranis

The Sulfur Pathway and Diagnosis of Sulfate Depletion in Grapevine - Sílvia Tavares and Sara Amâncio

Impact of Sulfate Deprivation and H₂S Exposure on the Metabolites of the Activated Methyl Cycle in Chinese Cabbage - Mei-Hwei Tseng, Chao-Kai Yang, C. Elisabeth E. Stuiver, Chiu-Ching Chang and Luit J. De Kok

Sulfate Transporters Involved in Cd-Induced Changes of Sulfate Uptake and Distribution in *Arabidopsis thaliana* - Chisato Yamaguchi and Akiko Maruyama-Nakashita

A Glycine-Rich Protein Encoded by Sulfur-Deficiency Induced Gene is Involved in the Regulation of Callose Level and Root Elongation - Anna Znój, Katarzyna Zientara-Rytter, Paweł Sęktas, Grzegorz Moniuszko, Agnieszka Sirko and Anna Wawrzyńska
